

ACRYFILL ACR 306

CHEMICAL COMPOSITION

Vynil-acrylic polymer

CHARACTERISTICS

<i>Appearance:</i>	<i>milky fluid</i>
<i>pH in solution at 10%:</i>	<i>3,5 - 4,5</i>
<i>Phase:</i>	<i>watery</i>
<i>Product uses:</i>	<i>coating of fabric, hides</i>

PROPERTIES

ACRIFILL ACR 306 is a vinyl-acrylic adhesive used for coating backing of various origin and in the production of thermo-adhesive backings.

ACRYFILL ACR 306 is also used in the finishing of particularly soft hand-woven fabrics.

USE

Recommended soaking temperature is approximately 60°C.
