

## ACRYFILL OL 94

### CHEMICAL COMPOSITION

Synthetic oil

#### CHARACTERISTICS

*Appearance:* yellow clear liquid

*Active substance:* 100%

### PROPERTIES

**ACRIFILL OL 94** is a synthetic oil for pull-up effects, either for full or buffed grain leathers. It is mixable with water, which makes it easily washable from machinery after use.

The pull-up effect is improved by allowing the leathers to stand for some hours.
