

ACRYFILL PLGS

CHEMICAL COMPOSITION

Polyurethane dispersion

CHARACTERISTICS

<i>Appearance:</i>	<i>white liquid</i>
<i>pH in solution at 10%:</i>	<i>7,5 – 8,5</i>
<i>Ionic Charge:</i>	<i>Final fixings</i>

PROPERTIES

ACRIFILL PLGS is a dull ready-to-use final finish capable of releasing an averagely soft and dull film. It confers a smooth, warm and waxy touch with good dry/damp resistance. It is generally used in upholstery, clothing and leatherware. Cross-linking with both isocyanates and polyaziridine is possible
