

ACRYFILL PR231

CHEMICAL COMPOSITION

Resins, waxes, proteins

CHARACTERISTICS

<i>Appearance:</i>	<i>milky liquid</i>
<i>Product uses:</i>	<i>cationic pre-bottoms</i>
<i>pH in solution at 10%:</i>	<i>3 - 4</i>

PROPERTIES

ACRYFILL PR231 is a polyurethane resin, wax and protein-based auxiliary suitable to prepare cationic pre-bottoms for footwear or clothing. It can be applied by spray or roller-coat and pre-bottoms can be roll.

USE

ACRYFILL PR231 must be used alone in the cement applying machine or it must be duly diluted with sprayed water.
