

## ACRYFILL PU/CP

### CHEMICAL COMPOSITION

Aromatic polyurethanes, proteins

#### CHARACTERISTICS

<i>Appearance:</i>	<i>transparent liquid</i>
<i>pH in solution at 10%:</i>	<i>8,5 - 9,5</i>
<i>Phase:</i>	<i>watery</i>
<i>Product uses:</i>	<i>fixing layers, bottoms</i>

#### PROPERTIES

**ACRYFILL PU/CP** is a polyurethane protein compound to be used as absorption adjuster for leathers to be varnished and thermos-adhesive backings.

**ACRYFILL PU/CP** must be applied in the initial stage and duly water diluted or roller-coat applied even without dilution.
