

## ACRYFILL SOFT W-3315

### CHEMICAL COMPOSITION

Waxes and natural fats

#### CHARACTERISTICS

<i>Appearance:</i>	<i>yellowish liquid</i>
<i>Active substance:</i>	<i>about 13%</i>
<i>pH in emulsion to 10%:</i>	<i>8 - 9</i>
<i>Phase:</i>	<i>watery</i>
<i>Use:</i>	<i>final touch</i>

### PROPERTIES

**ACRIFILL SOFT W-3315** is a waxes and natural fats based product. Use of the same gives the leathers a permanent fatty and waxy hand. Thanks to its chemical properties, **ACRYFILL SOFT W-3315** is compatible with both anionic and cationic products.

### USE

If used alone as a final touch modifier we suggest to dilute the same in the ratio 1 to 3 with water.
