

ACRYFILL WAX 168

CHEMICAL COMPOSITION

Waxy and silicon matters

CHARACTERISTICS

<i>Appearance:</i>	<i>ivory liquid</i>
<i>Active matter:</i>	<i>about 18%</i>
<i>pH in solution at 10%:</i>	<i>7,5 - 8,5</i>
<i>Phase:</i>	<i>watery</i>
<i>Use:</i>	<i>burnish effects</i>

PROPERTIES

ACRYFILL WAX 168 is a waxy emulsion medium hard suitable for shine in finishing.

ACRYILL WAX 168 has good filling properties and gives a waxy, soft and natural touch. Moreover, it increases resistance to rubbing both dry and wet.
