

## ANTIRUGA IB3

AUXILIARY FOR ECOLOGICAL LIMING

### CHEMICAL COMPOSITION

Blend of reducing products

### CHARACTERISTICS

<i>Appearance:</i>	<i>transparent colourless liquid</i>
<i>Active substance:</i>	<i>about 30%</i>
<i>pH in solution at 10%:</i>	<i>9 - 10</i>

### PROPERTIES

**ANTIRUGA IB3** is an auxiliary for ecological liming, free of inorganic sulphides and volatile amines.

**ANTIRUGA IB3**, thanks to its chemical composition, ensures a good anti-wrinkle ect. in absence of any type of exhalations and fumes, then it greatly improves the cleaning of the grain, helping the detachment of the hair complete with bulb, consequently contributing to the reduction of the sulphide used in liming.

### USAGE METHOD

It is used from 1% to 1,5% as anti-wrinkle.

It is used from 1% to 2% as partial substitute of sulphide.
