<i>Activity field:</i>	<i>pH 7 - 8</i>

PROPERTIES

BERMASIN T is a classic bating agent for precious skins like calves and kids where it cleans the grain well, making it fine and elastic.

BERMASIN T if used in low percentages, is used in the working of skins which must retain a certain consistency, but if used in higher dosage it is employed with soft skins like tassel and softy.

Anyway, the **BERMASIN T** action is powerful, and the working times have to be followed carefully and they must never be too long.
