PROPERTIES

BIOLICKER P is a fatliquor based on top quality, refined and oxidated fish oil which has undergone special sulphurization to obtain a deodorised product with excellent softening properties and excellent light fastness, which is not commonly found in normal fish sulphites.

BIOLICKER P is used to produce soft skins for furniture and clothing. Thanks to its strong emulsifying power.

BIOLICKER P can be used with other fatliquors to obtain other articles.
