

B-FILM/V

FILMOGENOUS AUXILIARY FOR FINISHING LINES

CHEMICAL COMPOSITION

Special emulsified oils with neutral solvents

CHARACTERISTICS

<i>Appearance:</i>	<i>colourless liquid</i>
<i>pH in solution at 10%:</i>	<i>6 - 7</i>
<i>Active substance:</i>	<i>100%</i>

PROPERTIES

B-FILM/V is an innovative product that makes cleaning operations, maintenance of the refinishing lines, quick and easy.

USAGE METHOD

Nebulize the product into the following previously cleaned components of the paint booth:

- Rotating carousel and relative spray guns
- Inside of windows

B-FILM/V, immediately after application, generates and imperceptible film on which the particles of the refinishing mixture are deposited and sucked in by the extraction system.

B-FILM/V will decisively make the subsequent cleaning phase easier, given that the dirty layer will be easily removed like "orange peel" with the help of a spatula.
