

DIMITROL IMP

WATER-REPELLENT FATLIQUOR

CHEMICAL COMPOSITION

Mixed of synthetic oily and natural emulsify

CHARACTERISTICS

<i>Appearance:</i>	<i>white paste</i>
<i>Active substance:</i>	<i>45 – 50%</i>
<i>pH in 10% emulsion:</i>	<i>7 - 8</i>
<i>Ionic charge:</i>	<i>anionic</i>
<i>Chrome stability:</i>	<i>no</i>
<i>Acid stability:</i>	<i>no</i>
<i>Light fastness:</i>	<i>good</i>

PROPERTIES

DIMITROL IMP is a fatliquor able to provide chrome-tanned leathers with water-repelling properties.

Moreover **DIMITROL IMP** owns very good softening properties and can be used as basic fatliquor and applied as it is.

DIMITROL IMP is light-fast, scarcely extractable and is suitable in the production of footwear articles, suede splits and garment leathers.
