

TENSIOL 83/100

DEGREASING - WETTING - FOAM DESTROYER

CHEMICAL COMPOSITION

Blend of propylenic and ethylenic copolymer

CHARACTERISTICS

<i>Appearance:</i>	<i>colourless liquid</i>
<i>Active substance:</i>	<i>55 – 60%</i>
<i>pH of the emulsion at 10%:</i>	<i>6,5 – 7,5</i>
<i>Ionic charge:</i>	<i>non ionic</i>
<i>Compatibility:</i>	<i>anionic and nonionic</i>

PROPERTIES

TENSIOL 83/100 is a product designed specifically for the particular needs of the tanning sector. In fact, it has been noted that the use of normal degreasers has, as undesired effect, the continuous formation of foam and this is an obstacle for the tanner when he wants to check the skins in drum.

Using **TENSIOL 83/100** this problem is completely solved, thanks to its high power as foam destroyer, while degreasing.

TENSIOL 83/100 is generally used in soaking, liming, bating, re-tanning and neutralisation.

USAGE METHOD

It is used from 0,6% to 1% according to the field of application.
