

## ECOPOL 944

DEGREASING-WETTING-EMULSIFYING AGENT

### CHEMICAL COMPOSITION

Anionic surfactants

### CHARACTERISTICS

|                            |                               |
|----------------------------|-------------------------------|
| <i>Appearance:</i>         | <i>dense yellowy liquid</i>   |
| <i>Active substance:</i>   | <i>approximately 30 - 35%</i> |
| <i>pH in 10% solution:</i> | <i>5,5 - 6,5</i>              |
| <i>Ionic charge:</i>       | <i>anionic</i>                |
| <i>Compatibility:</i>      | <i>anionic and nonionic</i>   |

### PROPERTIES

**ECOPOL 944** is a chemical auxiliary based on anionic surfactants and is an optimum degreasing agent for general use. It has optimum wetting, dispersing and emulsifying properties.

**ECOPOL 944** is particularly suitable in degreasing operations, either during the bating process or after the chrome tanning process and also as a degreasing agent in the initial phase of retanning.

### USAGE METHOD

0.5% to 1% is used based on requirements.
