

ELCATAN R6

RETANNING RESIN

CHEMICAL COMPOSITION

Melamine-resin-based product

CHARACTERISTICS

<i>Appearance:</i>	<i>clear powder</i>
<i>pH in solution at 10%:</i>	<i>7,5 – 8,5</i>
<i>Ionic charge:</i>	<i>anionic</i>

PROPERTIES

ELCATAN R6 is a melamine-resin-based retanning agent providing round and full touch, fine and close grain, above all in the emptier parts of leather.

ELCATAN R6 is compatible with all the anion-active tanning agents and dyestuffs.

ELCATAN R6 can be used for nubuk and suede articles because it improves buffability.

USAGE METHOD

After neutralization, because **ELCATAN R6** is not stable at pH values below 3 and is not resistant to mineral tanning agents.
