

MAYOFAT NAPPA FM

SPECIAL FATLIQUOR FOR NAPPA ARTICLE

CHEMICAL COMPOSITION

Mix of natural oils and special emulsifiers

CHARACTERISTICS

<i>Appearance:</i>	<i>ivory-coloured paste</i>
<i>Active substance:</i>	<i>45 - 50%</i>
<i>pH emulsion at 10%:</i>	<i>7 - 8</i>
<i>Ionic charge:</i>	<i>anionic</i>

PROPERTIES

Formulation suitable for all productions Nappa-type.
Particularly suitable for sheep skins, but exceptional also for calves.
It gives the skin round handle with very pleasant touch.
It has great affinity with dermal fibres to which it gives softness without making them empty.
It can be blended as softening additive, with all the anionic and non-ionic fatliquoring products.
It does not contain lecithin.
