

SOLFOL LN

EMULSIFIABLE VEGETABLE PHOSPHOLIPID

CHEMICAL COMPOSITION

Vegetable anionic fatliquor

CHARACTERISTICS

<i>Appearance:</i>	<i>light brown - coloured, paste</i>
<i>Active matter:</i>	<i>50 - 55%</i>
<i>pH of the emulsion at 10%:</i>	<i>7,5 - 8,5</i>
<i>Ionic charge:</i>	<i>anionic</i>
<i>Chrome stability:</i>	<i>no</i>
<i>Electrolyte stability:</i>	<i>no</i>

PROPERTIES

SOLFOL LN is a fatliquor that gives remarkable lightness to the treated leathers.

SOLFOL LN gives a good softness, because, besides having a right penetration in the leather, stops on the surface in the right measure to give a special and characteristic touch.

SOLFOL LN is used in blend with other fatliquors for the production of all articles, besides for white leather process, thanks to its good light fastness.
