Combination of synthetic and natural softeners

CHARACTERISTICS

<i>Appearance:</i>	<i>dark brown oily</i>
<i>pH in solution at 10%:</i>	<i>7,5 – 8,5</i>
<i>Ionic charge:</i>	<i>anionic</i>
<i>Active substance:</i>	<i>80 – 85</i>

PROPERTIES

SOLFOL PKE is a fatliquor formulated to produce very soft leathers for footwear, furniture and automotive.

SOLFOL PKE can be used alone or in combination with other fatliquors, and the treated leathers have an excellent smoothness and softness, with a very silky touch, you get also an excellent grain of drumming and ease to refinishing.

USAGE METHOD

We recommend using **SOLFOL PKE** from 5 to 7% on shaved weight, having excellent results of softness.

SOLFOL PKE must always be mixed before use. At low temperatures it solidifies, so it must be heated and mixed before use.

SOLFOL PKE should be stored at a temperature below 40 ° C.
