<i>Active substance:</i>	<i>85 - 90</i>

PROPERTIES

SOLFOL PKV is a fatliquor formulated to produce very soft leathers for footwear, furniture and automotive.

SOLFOL PKV can be used alone or in combination with other fatliquors, and the treated leathers have an excellent smoothness and softness, with a very silky touch, you get also an excellent grain of drumming and ease to refinishing.

SOLFOL PKV has a good whitening power and is recommended for white articles or for the metal free retanning.

USAGE METHOD

We recommend using **SOLFOL PKV** from 5 to 7% on shaved weight, having excellent results of softness.

SOLFOL PKV must always be mixed before use. At low temperatures it solidifies, so it must be heated and mixed before use.

SOLFOL PKV should be stored at a temperature below 40 ° C.
