PROPERTIES

TENSAPOL HSE degreasing based on solvents of a new concepts. **TENSAPOL HSE** is odorless, colorless and free from the danger of flash, while avoiding the problems due to transport dangerous both by land and by sea.

TENSAPOL HSE has been formulated also considering the fact that during the use in the air feels a annoying smell of solvent (using standard products), especially in winter where you are working in tanneries with door closed. With the use of **TENSAPOL HSE** you have maximum degreasing efficiency without incurring in solvent odor problems mentioned above.

TENSAPOL HSE has a strong emulsifier and detergent powers that makes it irreplaceable in the soaking of dry skin and of fat nature skin.

USAGE METHOD

SOAKING: using from 0,5 to 2% on dry skins depending on their fat nature

DEGREASING: use 3 to 5% on leathers weight

DEGREASING PICKLED SKINS: on pickled skins weight using 2 to 4%

DEGREASING OF CHROME TANNED LEATHER: on shaved weight using 2 to 3%
