

## TENSIOL PF

*SPECIFIC DETERGENT AGENT FOR FELTS*

### CHEMICAL COMPOSITION

Combination of anionic and nonionic substances

#### CHARACTERISTICS

<i>Appearance:</i>	<i>colourless liquid</i>
<i>Active substance:</i>	<i>30 – 35%</i>
<i>pH in solution at 10%:</i>	<i>5,5 – 6,5</i>
<i>Ionic charge:</i>	<i>nonionic</i>
<i>Compatibility:</i>	<i>anionic and nonionic</i>

### PROPERTIES

**TENSIOL PF** has been formulated specifically for the degreasing and cleaning of the felts used in tanning. In fact, while carrying out the pressing action, you can see, above all on the sides of the felt, a continuous accumulation of substance deposited by the transit of the skins.

**TENSIOL PF**, thanks to its particular deterging power, manages to remove completely this unwanted residue, keeping at the same time the felt in optimum condition.

So **TENSIOL PF**, thanks to its degreasing and cleaning action, allows you to make the felt last longer.

### USAGE METHOD

**TENSIOL PF** can be used both diluted 1:5 and concentrated, depending on the type of plant.
